WARRANTY AND DISCLAIMER:

READ AND FOLLOW ALL PRODUCT INSTRUCTIONS AND WARNINGS.

LIMITED WARRANTY: Gemini Technologies, Inc., DBA Gemtech, warrants to the initial retail purchaser that Gemtech products will be free of defects in workmanship or material and that the product meets manufacturing specifications at the time of manufacture. This warranty is limited to the repair or replacement of the product. This express limited warranty is exclusive and no other express or implied warranty is otherwise provided. GEMTECH MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE. Product technical specifications and/or designs may be changed without notice. This warranty does not cover negligence, misuse, careless or improper handling and/or operation, abuse, unauthorized adjustments or modifications, improper mounting/installation, ordinary wear and tear, the failure to follow manufacturer instructions and/or the use of inappropriate or defective ammunition.

GEMTECH SHALL HAVE NO LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES AND UNDER NO CIRCUMSTANCES WILL GEMTECH BE LIABLE FOR PERSONAL INJURY, PROPERTY DAMAGE OR ECONOMIC LOSS.

This warranty and disclaimer is subject to all applicable laws some of which may limit these terms.

WARRANTY REPAIRS: RETURN OF DAMAGED SUPPRESSORS:

If a suppressor is damaged due to a manufacturing defect once it has been fired, it may be returned to Gemtech for repair or replacement. Determination to repair or replace is made solely at our discretion and only after we have had the opportunity to examine and determine that the cause of damage is due to manufacturer defect. It is the responsibility of the customer to cover shipping costs and insurance to return the suppressor to Gemtech for inspection or repair. Gemtech will pay any reasonable shipping and insurance costs to return the unit to you. To ensure proper legal procedures for any repair returns, fill out and provide a copy of the **General Service Form** with any packages sent to us. (Visit: gem-tech.com, navigate to CUSTOMER SUPPORT/RETURN & REPAIR POLICIES to download the **General Service Form.pdf** or call 208.939.7222).

BATFE no longer requires transfer on a Form 5 to the manufacturer for repair. BATFE does require a letter accompanying the suppressor detailing the repairs or modifications required. BATFE requires proof of ownership satisfied by a photocopy of the front of the owner's form 3,4, or 5.

NOTE: BATFE prohibits transferring the serial number to a new outer tube in the case of damage to the tube. Tube damage rendering the suppressor unsafe to use will require a new suppressor.

USE AND OPERATION:

The AURORA is a low visibility, limited life suppressor. It was specifically designed and intended for survival and escape scenarios and is also suitable for close encounters and low round count covert operations. Accuracy is limited to 5 yards. Usable life is anticipated at 10 rounds or one magazine before replacement of the wipes and ablative is required. The AURORA should ONLY be used with full metal jacket 9mm subsonic ammunition. Users need to be aware that the first five rounds are the quietest and sound performance will deteriorate with each successive round.

AMMUNITION:

NEVER USE HOLLOW POINT, BLUNT NOSE, OR ANY TYPE OF FRANGIBLE AMMUNITION IN A SUPPRESSOR THAT UTILIZES THE WIPE SYSTEM. USE ONLY ROUND NOSE FULL METAL JACKET AMMUNITION, AND SUBSONIC AMMUNITION OF THESE SPECIFICATIONS IS RECOMMENDED. DO NOT USE ON WEAPONS CAPABLE OF AUTOMATIC FIRE.

The AURORA suppressor is specifically designed to be used with subsonic 9mm Luger ammunition loaded with full metal jacketed projectiles weighing between 147 and 170 grains. Because "wipes" are used, it is of utmost importance that soft point, hollow point, or any other expanding projectile never be used. Suitable commercial ammunition includes the Samson-IMI 158 grain FMJ subsonic cartridge (Blue Tip), and we highly recommend its use.

ONLY USE FACTORY CERTIFIED SAMMI APPROVED AMMUNITION WITH THIS GEMTECH SUPPRESSOR.

INSTALLATION AND REMOVAL:

WARNING! DO NOT INSTALL OR REMOVE WITH A LOADED WEAPON.

First remove the magazine from the firearm. Second, visually and manually check and clear the chamber and action. Make certain the firearm is unloaded at all times.

INSTALLATION: Remove any thread protector or muzzle device. Thread the AURORA clockwise onto the muzzle.

HAND TIGHTEN ONLY. DO NOT OVER TIGHTEN.

REMOVAL: Unscrew the AURORA counter-clockwise by hand.

CAUTION! DO NOT REMOVE THE AURORA WHILE THE SUPPRESSOR IS HOT.
